

FLOWER block: cut-it-yourself template (issue #179)

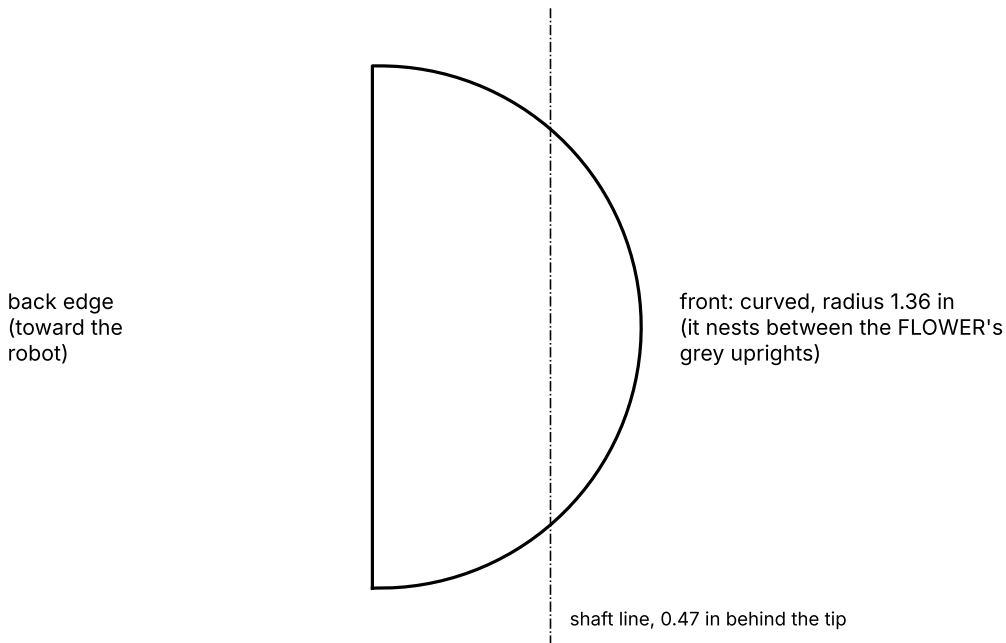

Print at 100 % / actual size. The square must measure 1 in.

Stock: 3/4 in plywood, hardwood or HDPE, 0.75 in thick. On the robot that puts the bottom at 0.65 in and the top at 1.40 in. Sand the top down to 1.35 if you can.

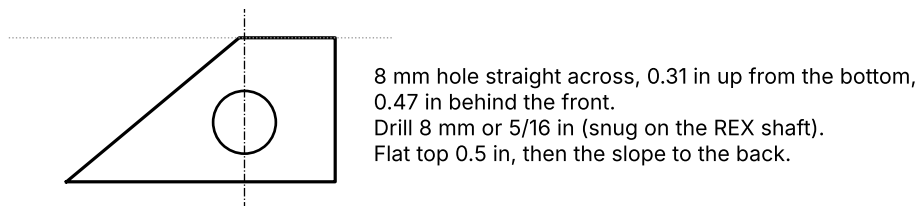

1 in

TOP VIEW (plan): cut this outline

SIDE VIEW: slope the back down to the bottom edge

Lock it on the shaft: a #6 wood screw (or M3) up from the bottom into one of the shaft's flats, plus the two collars either side. Square the flat top to the tiles before tightening.
